

## Drop Off

Bran Van 3000

She walks around in rain  
To a happy refrain  
She looks out the window  
She wonderin' what it is  
Wonderin' if it's a pop quiz  
About showbiz on flying saucers  
I call back through that misty haze  
And say we'll deal with you soon angel  
When I meet you  
Yeah  
Can't make a fool out ourselves at the homecoming gig (I'll make sure)  
Positive - Positive (Yes I'm positive)  
We're super-super stars with this life to live  
Life to live, Life to live (Are you sure)  
No food on the table but the soul is big  
Soul is big, Soul is big (Yes, I'm positive)  
Keep walking 'round single, while your friends got kids  
Okay  
He walks around in vain  
Strollin'  
With a longing refrain  
Horse and buggy too  
Central Park in view  
He looks out the window  
Wonderin' what it is  
Wonderin' if it's flying saucers  
I call him over  
Through a misty maze  
I see you through the daze  
So I'll meet you in the garden  
I'll meet you in the garden  
Meet you in the garden  
I'll meet you  
Yeah  
You made a fool out yourselves at the homecoming gig  
Positive - Positive (I'll meet you)  
We're super-super stars with our lives to live  
Life to live, Life to live (In the garden)  
Soul food is on the table when the soul is big  
Soul is big, Soul is big (Oh - Oh - Oh - Oh)  
The river run deep and it is what it is (Meet you in the garden)  
Now in case you peeked out the window  
And wondering where I was  
Wondering if there was flying saucers  
I call back from a misty haze  
And say we'll deal with this soon baby  
We just gotta get our flow see  
Because  
The river flows - oh no  
The river flows - on and on  
Well - we  
Tired of the kitchen  
Three G's on the mantelpiece  
Soul tar with a mission (Soul)  
Livin' tardy of the kitchen  
Expectations break the flow (what now)  
And the chronic put is privilage

That's how the cosmic puts the funk in - to the day (eh)  
Your a super-super star with your life to live  
And I hear you babe - I hear you babe  
Now the jumbo trunch is ketchup in gravy  
All a million boogie - Hey  
You wanna star on your nature karma - in a million booty  
It's a basic group can get  
Miss your day river flows - day - day-o  
Make your moves if you please player - day-o (uha, ha)  
Put your UFOs on the total block (okay) - ahhh  
Movin' it, poppin' it, talkin' it, rockin' it  
More cowbell and Christopher Walken it  
Knockin' it, killin' it, car star chockin' it  
Front head row - you know what's positive  
Positive - is the new tweak - uh  
Say it like school teacher  
But I'm cookin' with the preacher man - uh  
And now they're jumping out the bleachers - uh  
Let's go  
Some have speculated that the howling  
Straightens the social bonds between pack-mates  
The pack that howls together - stays together  
Well that may be so - but what it is  
Well it's a bloody mess of rock and roll init!
