

# You

Bran Van 3000

I'm not an actress  
I'm a waitress  
I'm not a waitress  
I'm an actress  
I'm not an actress  
I'm a waitress  
I'm not a waitress  
I'm an actress

I get high on you  
I could see you in my movies  
Sometimes I forget the story  
Yes they say that I am funny  
When they say so it feels sunny  
It feels sunny  
And I dunno they wanted us to cut here  
But it just keeps on rolling

I get high  
Listen close you coast to coast  
You had it locked  
Each rhymes are rally to the top  
Like back in Cali taking shots  
Out in the valley where they flock  
They be blasting kids converge  
Till them birds with soccer moms  
And caravans love to jam  
So much can be planned  
Life forgiveness to be lived  
Dreaming for another dose  
Gettin' high for you is  
Sold the solar system (yeah)  
You could feel the vision (yeah)  
You could see the rhythm  
Lighting, lighting in the mission  
(I get high)  
Heart racing as we start gazing  
(On you)  
Taking in all the surrounds  
Baby I ain't coming down  
Feeling full the constant fix  
That softens any heart that hardens  
Believing even Adam  
Had this feeling in the garden  
Believe in dreams you have  
Without them bliss within your reach  
Stretch beyond imagination  
Learn the lessons they can't teach  
Without wings we lift off  
Drift off and get lost  
Only to find out we're much  
Closer than we first thought  
Only the shine in the darkest of times  
Harvest divine  
Plant seeds for future to find  
In my heart imma keep you in mind  
Just to get by

'Cus an image of you's enough  
To get high

I get high  
I get high  
I get high on you  
I get high on you  
I get high  
I get high  
I get high on you  
I get high on you  
I get high on you  
I get high on you  
I get high on you  
I get high on you  
Oh, I get high on you  
I get high  
I get high on you  
I get high  
I get high

I get high  
I get high  
I get high on you
