

Better King

Branan Murphy

Feels like I'm always walking with baggage
Feels like I'm always walking with baggage
And I just want to be free
To slow down and be free

I made a life just making a profit
I made a life just being a prophet
Like I don't know what I want
But you know what I want

I prove you right every time
My ways may seem right but yours are higher than mine

Cause you're a better king
Than I could ever be
Rule over and over rule me

Who made control look so tempting?
Who made control feel so empty?
Cause I know they're fooling me
They keep on fooling me

I prove you right every time
My ways may seem right but yours are higher than mine

Cause you're a better king
Than I could ever be
Rule over and over rule me

Thought I wanted
Thought I wanted
Thought I wanted
To be the captain of my fate but only you control the tide
Now I'm running
Now I'm running
Now I'm running
Into the only arms that carried me this far
Jesus you are

Cause you're a better king
Than I could ever be
Rule over and over rule me
