

# Father

**Branan Murphy**

Headlines screaming in my face  
Welcome to another day  
More of the same ole, same ole pain on planet earth  
Sirens flying, no escape  
How could I look away?  
Too much to get through, I need a rescue, how long do we have to wait on planet earth?

Like I'm in a movie that I don't wanna see  
Eight billion episodes of tragedy

Father  
Father  
Can you hear us crying out  
Even if we don't know how  
Father  
Father  
Oh, we need your love and we need it now  
Will you come and dry our tears?  
Cause we're all just children here

Are we numb to all we've seen?  
Maybe it's just a bad dream  
We turn our misery into memes  
On planet earth  
So much damage to undo  
From self inflicted wounds  
We went fishing for division, mission accomplished, that's how we living on planet earth  
So we need you, we need you

Father  
Father  
Can you hear us crying out  
Even if we don't know how  
Father  
Father  
Oh, we need your love and we need it now  
Will you come and dry our tears?  
Cause we're all just children here

Tell us it'll be ok  
Show us that you're wide awake  
When the sad song don't fade  
Remind us that you run this place  
No, I'm not ashamed to say I just need my dad  
When it all goes south  
Your presence is all around  
And when the heart pounds  
I know you're familiar with that sound  
It's the reason why you made a way out

Father  
Father  
Can you hear us crying out  
Even if we don't know how  
Father

Father

Oh, we need your love and we need it now  
Will you come and dry our tears?  
Cause we're all just children here

If the pain won't disappear  
We just need to know you're near
