

God Of My Tomorrow

Branan Murphy

I can hear you calling
I know you're gonna lead me to the Promised Land
But I'm a prisoner of the moment
Can I really let go of what I don't understand?

Cause today feels so impossible
But I'm running to your arms
I know the future is a place where you already are

God of my tomorrow
Lead me I will follow
I got nothing to fear
I know you'll be there cause I know you're right here
God of my tomorrow

Even in the valley
When I'm walking in the shadow of death
Your love will surround me
I don't wanna face fire with nobody else

Cause today feels so impossible
But I'm running to your arms
I know the future is a place where you already are

God of my tomorrow
Lead me I will follow
I got nothing to fear
I know you'll be there cause I know you're right here
God of my tomorrow

They say you fear what you don't know
They say it's so hard to let go
But I love how you hold me Jesus
You're in control
You promise peace and I'm tired of fighting
I'll sit economy and trust the pilot
Then maybe in mind we can stop the riots
What's a momentary battle to a lion?

You...
God of my tomorrow
Lead me I will follow
I got nothing to fear
I know you'll be there cause I know you're right here
God of my tomorrow...
