

I Will Wait

Branan Murphy

I love to be here where You are, yeah
I need You to speak to the dark, yeah yeah
You see me when I'm feeling lost
You hold me when the night is long
You promise that You got me
I'll take You at Your word

I will wait
Won't move until you do
You'll make a way
Got every reason to be unafraid
All over history You never change
So I will, I will wait
(Wait)
So I will, I will wait
(Wait)
I will, I will wait

Your closer than I know You are
Oh, Lord. Oh, Lord
I won't be shaken in the dark.
No, no, no, no, no
You see me when I'm feeling lost
You hold me when the night is long
You promise that You got me
I'll take You at Your word
I will wait
Won't move until you do
You'll make a way
Got every reason to be unafraid
All over history You never change

So I will, I will wait
(Wait)
I will, I will wait
(Wait)
I will, I will wait
(Wait)
I will, I will wait
(Wait)
I will

Yeah, I only got a minute
Throw me crumbs like a pigeon
You can get up out my business
I ain't get it when I want so I'm losing my religion huh
We don't even give you time to be God
Tik Tok world but it got a downside
No one ever told me always runnin' was a lie
I ain't trippin, time tickin' reinvented
Gimme vision God
I will wait
I will wait, I will wait
Won't move until you do
You make a way (make a way)
Got every reason to be unafraid (oooh)
All over history You never change (never change)

I will wait
(I will wait for You)
I will, I will wait
(I will wait for You)
I will, I will wait
(I will wait for You)
I will, I will wait
(I will wait on You)
I will, I will wait
