

Talk About It

Branan Murphy

We can't move with all the elephants in the room
We don't talk about it, we don't talk about it
Bite my tongue, it's like we're suffocating love
We don't talk about it, we don't talk about it

Truth be told, there's so much hope that needs to be heard
But no one says a word, it's time we...

Talk about it
We've been dancing all around this for too long, let's...
Talk about it
We ain't going nowhere till we work this out
Oh, woah, woah, oh, woah, woah
Oh, woah, woah, talk about it

Black and white, there's so much more than what meets the eye
If we just talk about it, can we talk about it
Free to speak, the price was paid for you and me to talk about it
So let's talk about it

Truth be told, there's so much hope that needs to be heard
But no one says a word, it's time we...

Talk about it
We've been dancing all around this for too long, let's...
Talk about it
We ain't going nowhere till we work this out
Oh, woah, woah, oh, woah, woah
Oh, woah, woah, talk about it
Oh, woah, woah, oh, woah, woah
Oh, woah, woah, talk about it

We're going around in circles
Speak up and break the silence
We're going around in circles
Speak up and break the silence
Things will never change
They'll never change until we talk about it
Things will never change
They'll never change until we talk about it
Can we talk? Can we talk?
Can we talk?

Talk about it
We've been dancing all around this for too long, let's...
Talk about it
We ain't going nowhere till we work this out
Oh, woah, woah, oh, woah, woah
Oh, woah, woah, talk about it
Oh, woah, woah, oh, woah, woah
Oh, woah, woah, talk about it

We're going around in circles
Speak up and break the silence
We're going around in circles
Speak up and break the silence
We're going around in circles

Speak up and break the silence
We're going around in circles
Speak up and break the silence...
