

# Thankful

**Branan Murphy**

Another day, another test  
It's all a gift if I can breathe another breath  
So many things that I regret  
But none of them could change how crazy I've been blessed

My problems  
I don't even really need to solve 'em  
I'm learning what to do make 'em smaller  
Thinking bout how good you've been to me

Everything you give and everything you take  
I'm praying that it's making me thankful  
All I need to know is I belong to you  
Forever I can choose to be thankful

Thank  
Thankful  
I just wanna be  
Thank  
Thankful

Took me a while to understand  
Everything I have is nothing I deserve  
I'll took the good, I'll take the bad  
Whatever's from your hand I'll thank you in return

Thank  
Thankful  
Cause you've been so good yea  
Thank  
Thankful

This is what I know  
Seasons come and go  
People come and go  
Blessings come and go  
Every little thing  
You're taking care of me  
You've been so faithful

Thank  
Thankful  
It's your will for me to always be  
Thank  
Thankful

It's who I wanna be  
You're making me  
You're keeping me  
Thankful
