

# Gone

Brandi Carlile

Life is too short to waste all your time  
Running too quickly to the finish line  
Time is a track, it's ready and set  
And the longer you live, the closer you get to being

Gone, gone like the evening  
Sun, sun when it sets  
Gone, gone like the darkness  
At dawn and then they forget

There's no guarantees or promise of wealth  
And you're only allowed so much time on the shelf  
Time isn't money, it's only a lie  
Because everything lost can be found but your time when you're

Gone, gone like the evening  
Sun, sun when it sets  
Gone, gone like the darkness  
Dawn and then they forget

So live in doubt and live in fear  
And you might live forever  
Or live it up and watch your back  
And you might live for better

Gone, gone like the evening  
Sun, sun when it sets  
Gone, gone like the darkness  
Dawn and then they forget
