

# Ad Infinitum

Brandon Boyd

[Verse 1]

Well, I've been a hammer a while  
And all the world looks like a nail  
Everywhere I go, story stays the same  
We get hurt then repeat it  
Is there anyone out there I could hold onto that  
Might make this hurt okay?

[Chorus]

These are the wounds that never mend  
Ad infinitum 'til the end  
Oh, but I could be healed  
By you who gave me the wound

[Verse 2]

I've tried to starve and exile  
And fish for minnows off a whale  
But everywhere I go, song remains the same  
You can't win or defeat it  
Are there any more swords that I need to fall onto before  
My heart can win the day?

[Verse 3]

I'll be robust and agile  
And I will look under the veil  
But everybody knows Aphrodite's name  
A circle completed  
Is there anyone in here I can rely on to  
Take this pain away?

[Chorus]

These are the wounds that never mend  
Ad infinitum 'til the end  
Oh, but I could be healed  
By you who gave me the wound

[Instrumental Break]

[Chorus]

These are the wounds that never mend  
Ad infinitum 'til the end  
Oh, but I could be healed  
By you who gave me the wound

[Outro]

But I could be healed  
By you who gave me the wound
