

More Better

Brandon Boyd

My shadow is in front of me
Swimmin' in digital debris
'Cause they know me more better than
Better than I know myself
Nothin' as it used to be
We're rudderless on an open sea
'Cause they know you more better than
Better than you know yourself

Attention as commodity
A newer, better version, come and see!

'Cause they know you more better than
Better than you know yourself
Algorithm-ocracy
A tailor-made big emergency
Nobody should know you better than
Better than you know yourself
Better than you know yourself
Better than you know yourself
