

# Don't Be Afraid

Brandon Heath

For the one who's searching in the dark  
Or the one whose world just fell apart  
For the one pulled over in your car  
Don't be afraid  
For the one who's praying through the night  
Or the one who's waiting for the light  
Anyone who's worn out from the fight  
Don't be afraid

Don't be, don't be, don't be  
Don't be afraid  
Don't be, don't be

You gave Him your heart  
He's keeping it safe  
When you're in the dark  
Caught up in the fray  
Wherever you are  
Whatever you face  
You're held in the arms  
That nothing can break  
So don't be afraid

For the one who keeps it all inside  
Or the one who says: No, I'm just fine  
For the one who hurts too much to cry  
Don't be afraid  
For the one who knows but will not say  
Or the one who's blinded by the pain  
Anyone just trying to be brave

Don't be afraid  
Don't be, don't be, don't be  
Don't be afraid

Don't be, don't be

You gave Him your heart  
He's keeping it safe  
When you're in the dark  
Caught up in the fray  
Wherever you are  
Whatever you face  
You're held in the arms  
That nothing can break  
So don't be afraid

Don't be (don't be afraid)  
Don't be (don't be afraid)

Don't lose faith  
Don't lose heart  
He is with you wherever you are  
Don't give up  
When you fall apart  
He is with you

You gave Him your heart  
He's keeping it safe  
When you're in the dark  
Caught up in the fray  
Wherever you are  
Whatever you face  
You're held in the arms  
That nothing can break  
So don't be afraid

Don't lose faith  
Don't lose heart  
He is with you wherever you are  
Don't give up  
When you fall apart  
He is with you  
So, don't be afraid

Don't be, don't be afraid  
Don't be, don't be afraid
