

Got the Love

Brandon Heath

I got fire in my soul
Could it be a miracle
Burning supernatural
People everywhere I see
From LA to NYC
Don't know what's come over me

My feet feel a little bit lighter
My head's up a little bit higher
The sunshine's a little bit brighter
Cause I got the love

Once you feel that deep down healing
There ain't no ceiling
When you've got the love
Once you find it, Just can't hide it
Your world ignited
When you've got the love

When you've got the love
(When you've got the love)
When you've got the love
(When you've got the love)
When you've got the love
When you've got the love
When you've got the love
(When you've got the love)
When you've got the love
(When you've got the love)
When you've got the love
(When you've got the love)

Love won't leave you love is true
I see clouds and love sees through
To the best in me and you, you
There is nothing we could say that could take this love away
Yours and mine forever stay, stay

My feet feel a little bit lighter
My head's up a little bit higher
The sunshine's a little bit brighter
Cause I got the love

Once you feel that deep down healing
There ain't no ceiling
When you've got the love
Once you find it, Just can't hide it
Your world ignited
When you've got the love

When you've got the love
(When you've got the love)
When you've got the love
(When you've got the love)
When you've got the love
When you've got the love
When you've got the love

(When you've got the love)
When you've got the love
(When you've got the love)
When you've got the love
(When you've got the love)

Oh my, for goodness sake
Nothing in the world make you feel this way
Love will make you do the impossible
Hurt you so good need a hospital
Geronimo, hearts bout to blow up
Solid gold when you got the good stuff
You can shine like the stars above
But you ain't got a thing if you ain't got love, oh
It don't mean a thing if you ain't got love

Once you feel that deep down healing
There ain't no ceiling
When you've got the love
Once you find it, just can't hide it
Your world ignited
When you've got the love

When you've got the love
(When you've got the love)
When you've got the love
(When you've got the love)
When you've got the love
When you've got the love
When you've got the love
(When you've got the love)
When you've got the love
(When you've got the love)
When you've got the love
(When you've got the love)

When you've got the love
When you've got the love
When you've got the love
