

# He Does

Brandon Heath

Wouldn't it be great if there was an answer  
A quench for the heart, a cure for cancer  
Holding us close like a tiny dancer  
With plenty of love for everyone  
Wouldn't it be cool if we had a direct line  
Straight to the top we could call anytime  
Whatever the reason or inclination  
With no hesitation

If only there was somebody watching over us

Oh He does  
He does He does He does  
Oh by the way He does  
He is He was  
What if it was true  
Knows you more than you  
He does He does He does He does  
Oh by the way He does  
He lives He loves  
What if Jesus saves  
Oh by the way He does

Wish there was a love, a love unconditional  
Maybe our condition wasn't so critical  
Bless our politicians they're so political  
They don't work miracles but  
He does He does He does He does  
Oh by the way He does  
He is He was

What if it was true  
Knows you more than you  
He does He does He does He does  
Oh by the way He does  
He lives He loves  
What if Jesus saves  
Oh by the way

He knows us  
He sees us  
There ain't no one love me like Jesus  
Found me in the night  
Brought me to the light  
I'm not who I was  
No one loves me like He does

He does He does He does  
Oh by the way He does  
He is He was  
What if it was true  
Knows you more than you  
He does He does He does He does  
Oh by the way He does  
He lives He loves  
What if Jesus saves  
Oh by the way He does
