

Only Just Met You

Brandon Heath

Lost in my wilderness
In all Your tenderness
You found me hiding in the night
Reached out Your gentle hand
I did not understand
You spoke a word and there was light

Said You've only just begun
And if You've only just begun
What can I do

I can't explain it
But my heart is beating faster
So this how Heaven feels
Jesus, Your love I can't deny
I'm so completely
Whole-hearted head over heels
And I only just met You
I only just met You

You give me galaxies
Wash me in salty seas
It's almost more than I can bear
There's not a single fear
It cannot touch me here
I can't remember who I was

And You've only just begun
And if You've only just begun
Oh, what can I do

Only gets better, only gets better
Only gets better from here
Only gets better, only gets better
Only gets better from here

For such a mystery
It makes so much sense to me
And I only just met You

Only just, only just met You
Only gets better from here
Only just, only just met You
Only gets better from here
Only gets better, only gets better
Only gets better from here
Only gets better, only gets better
Only gets better from here
