

# We Need Emmanuel

Brandon Heath

I'm not entirely sure what's come over me  
Up in the attic with that old fake Christmas tree  
Barely November, I can't remember me  
Looking for Christmas so early  
Could be the days getting shorter and darker now  
All the world's problems I never could figure out  
What's got me wishing for snow  
Not sure but I think I know

God with us  
Will you come be with us?  
'Cause we need a little help  
We need Emmanuel  
Love come down  
Sing with the angels now  
Just like the first Noel  
We need Emmanuel

Christmas this year doesn't feel quite the same as it  
Did back when I was a boy  
The specials on TV and Holly and maybe it's just me  
But why's it so hard to find joy?  
I hope I don't sound ungrateful  
There's food on the table and family around  
The Christ in a manger, could I ask a favor?  
Could I just hold you right now?

God with us  
Will you come be with us?  
'Cause we need a little help  
We need Emmanuel  
Love come down  
Sing with the angels now  
Just like the first Noel  
We need Emmanuel

God with us  
God with us  
God with us  
God with us  
God with us

God with us  
Will you come be with us?  
'Cause we need a little help  
We need Emmanuel  
Love come down  
Sing with the angels now  
Just like the first Noel  
We need Emmanuel  
Just like the first Noel  
We need Emmanuel  
Emmanuel
