

Upside Down

Brandon Jenner

Make my day
Handshakes falling to pieces
Break away
My eyes out of socket again
I hate all the waiting
With the world beating down on my shoulders
So I combine
All the lies you have told, and drawn on the ceiling

My head keeps tripping, no one's here to listen
Pour my pain in the music, keep the smile glistening
If you care about your safety, then cover your head
I'm gonna tear down these walls and turn this fuckin' place ups
ide down
I'm gonna tear down these walls and turn this fuckin' place ups
ide down

I'm scared and so confused
I've got this brain shaking 'round in circles
I'm thrashing through this room
And nothing dare get in front of me
You know you fuck with my feelings, now that's all my reason
For letting these emotions run loose
If there's a crime, it's my patience, this prison of anguish
The fairytales I buried in you

My head keeps tripping, no one's here to listen
Pour my pain in the music, keep the smile glistening
If you care about your safety, then cover your head
I'm gonna tear down these walls and turn this fuckin' place ups
ide down
I'm gonna tear down these walls and turn this fuckin' place ups
ide down

Gonna tear these walls down, yeah
And turn this fuckin' place upside down
Turn it, turn this place, I'll turn this place
And turn this fuckin' place upside down
I'm tearin' these walls down, gonna tear these walls down
And turn this fuckin' place upside down
