

# We Won't Be Alone

Brandon Jenner

If you're worried about where we go  
When our time is done here  
Well then you're not the only one, no  
And there is nothing to fear

We won't be alone (won't be alone)  
We won't be alone (won't be alone)

When you look up at the trees  
Do you just see the wood and leaves  
Or do you see those silent souls (see those souls)  
Happily dancing in the breeze  
All the gurus and the geeks  
On this they do agree (agree)  
And while they can't say where you'll go (while they can't say  
where you'll go)  
They know you'll be right there next to me

We won't be alone (won't be alone)  
We won't be alone (won't be alone)  
We won't be alone, no (won't be alone)  
We won't be alone (won't be alone)

Everybody knows  
We're just here for a short time  
But we run around acting like  
We are here to stay  
When all that matters is each other in the end  
All that matters is each other in the end  
(And in the end)

We won't be alone (won't be alone)  
We won't be alone (won't be alone)  
We won't be alone, no (won't be alone)  
We won't be alone (won't be alone)
