Mercy Medical

Brandtson

Hello, it's mercy medical We're sorry to inform you of This situation critical. hello,

It's mercy medical, We've done everything we can do There's nothing left Its up to her and so

Welcome to your funeral Where they talk about the girl they knew, A tragedy a shame to lose her, oh.

A little girl so beautiful A life so new and meaningful, That little girl so beautiful.

Is it difficult to swallow When the air is thin And you can hardly breathe?

Tell them now, They'll listen now, They'll help you now, Just tell them how.

Does it feel like nothing ever changes, And make you want to sleep forever?

Tell them now, They'll listen now, They'll help you now, Just tell them how.

It's bravery to stay away From ending life before it's over.

Hello.
