

# Happy

Brandy

I don't even know  
How it got this way  
When I first met you  
I never thought your love was true  
But I'm glad I saw just what was in store  
All the while you plan to be my man  
Now I'm in love with you

You make me happy  
You make me feel so good  
With the things you do for me  
Oh baby can't you see that  
You make me happy  
Make me feel so good  
With the things you do for me  
Oh baby, baby, baby

In search of happiness  
Tryin' to find someone  
Who can make my life so complete baby  
If I only knew that someone was you boy  
There would have been more happy days  
So don't you go away

You make me happy  
You make me feel so good  
With the things you do for me  
Oh baby can't you see that  
You make me happy  
Make me feel so good  
With the things you do for me  
Oh baby, baby, baby

No one can make me feel this way  
You always seem to brighten up my day

You make me happy  
You make me feel so good  
With the things you do for me  
Oh baby can't you see that  
You make me happy  
Make me feel so good  
With the things you do for me  
Oh baby, baby, baby
