

## Lucid Dreams

Brandy

One more strike and I'm out  
I had to figure it out before I lose  
Lose me to you  
Feeling like I  
Got demons to tame (Illusions)  
Maybe it's a daze  
Gots worse all the time  
I was always high  
I had to readjust  
I got the feeling I didn't belong there  
All alone here

I've been here before, ain't no secret  
Guilt dealt me tragedy inside, ate me alive  
I wanted to die  
'Til I realized my real life already left to deal with your broken self  
You need you and I need me, too

Chasin' sleep (Sleep)  
That's where I can see far  
Feel you and only one  
Lucid dream, lucid dream, abusin' ambient  
Oh, my Lord, I see a car  
Used to write our name in car fog (More than you, more than me)  
Ambient
