I ain't even close to leaving this house There's still so many rooms left to cover And there ain't no reason for you to ever be without Memories of me and my lover

And I want these stairs, those walls Kitchen counter, and those chairs To remind you of how good it feels And all of these floors and ceilings And every hallway (yeah) Not an inch will go untouched

Let's paint this house with our love (our love)

I'll just lay while you stroke, you putting it down Damn you showing all your colors
My wildest thoughts are provoked yeah
It's like you're in my head right now (now, my head)
Cause you know me like no other ooooh

And I want these stairs, those walls Kitchen counter, and those chairs To remind you of how good it feels And all of these floors and ceilings And every hallway (yeah) Not an inch will go untouched

Let's paint this house with our love (our love)

Our love Love oh oh Ooh ooh

Cancel the decorator
We don't need no help
You'll pick out the colors
We'll clean up the mess later
We do it so well
Loving one another
In the closet
On the faucets
In the balconies
Anywhere you are inside this house
You'll, think of me yeah yeah yeah

And I want these stairs (stairs), those walls
Kitchen counter, and those chairs (those chairs)
To remind you of how good it feels (good it feels)
And all of these floors and ceilings (floors and ceilings)
And every hallway (yeah yeah yeah)
Not an inch will go untouched

Let's paint this house with our love (our love)
