

Say Something

Brandy

Ayy, yeah-yeah

I'm on the fence 'cause I'm under attack
Been on that fence and I ain't looking back
Questioned some things that I thought was a fact
I said some things that I could never take back
Figures of speech, I put you on the map
You take back promises, where did they go?
Acting up but no one's there for the show
Hurt you, my bad, but how low can you go?

Say something
Something to believe again
Tell me to believe you
Think you gonna need me some day
Say something
Something to believe again
Tell me to believe you
Think you gonna need me some day

Talk back, take it back
Get mad, matter fact
All the things that I
Shoulda learned, it's a wrap, boy

I'm on defense cause of how you react
Been on the fence and I ain't looking back
You question my shit, never picked up your slack
You did some things but I'm over all that
Figured I'd leave and you right about that
You take back promises, where did they go?
Acting up but no one's there for the show
Hurt you, my bad, but how low can you go?

Say something
Something to believe again
Tell me to believe you
Think you gonna need me someday
Say something
Something to believe again
Tell me to believe you
Think you gonna need me someday

Talk back, take it back, yeah
Get mad, matter of fact, yeah
All the things, yeah, that I
Shoulda learned, it's over, boy

Say something
Something to believe again
Tell me to believe you
Think you gonna need me someday
Say something
Something to believe again
Tell me to believe you
Think you gonna need me someday
