

Shattered Heart

Brandy

Don't shatter my heart [x5]

I've been saving up this treasure for years
I hid it somewhere so no-one could touch it, yeh
With every love I had some reason to leave
No other like it 'cause it's so authentic

Many driver couldn't bear her though
Try to break through the gate but didn't have the gaul
When I looked in your eyes, I felt a glitch, yeh
So I present you with my most precious gift

I put my love in a jar
In my heart, like a piggybank
And I'm giving it to you
So whatever you do...

Don't shatter my heart [x9]

Never knew that love can be so epic, yeh
But you save me 'cause you're all heroic
Legend has it that you've earned this throne
Since you came and pulled the sword out the stone

Many driver couldn't weather the storm
You came in my life and turned the lights on
Now when you touch me baby, I can't resist
So I present you with my most precious gift

I put my love in a jar
In my heart, like a piggybank
And I'm giving it to you
So whatever you do...

Don't shatter my heart

In a big emergency
Don't break the glass, call me
Our love can save anything like the father
Believe me
I'll give you my all 'cause
My heart makes me stronger
And if you pour into it
I can go even harder

I put my love in a jar
In my heart, like a piggybank
And I'm giving it to you
So whatever you do...

Don't shatter my heart [x25]
