

## Sunny Day

Brandy

What's a sunny day without you  
Just another 24 that passes by  
What's a sunny day without you  
Just another 24 that passes by

As I sit upon the grass in the shade  
I remains on what we had the romance  
That's we shared strolling through the park  
Two people in love walking hand in hand  
But now that your gone I feel so alone  
All I do is think of you till the  
Day you return it doesn't mean a thing

What's a sunny day without you  
Just another 24 that passes by  
What's a sunny day without you  
Just another 24 that passes by

It's funny how you learn from your mistakes  
Sometimes we take things for granted  
But now that I have a change to make it right  
I wanna give you  
I wanna give you all my love oh oh

But now (but now)  
That your gone (that your gone)  
I feel (I feel so alone)  
All I do is think of you  
Till the day you return  
It doesn't mean a thing

What's a sunny day without you  
Just another 24 that passes by  
What's a sunny day without you  
Just another 24 that passes by

What's a sunny day without you (4x)

What's a sunny day without you  
Just another 24 that passes by  
What's a sunny day without you  
Just another 24 that passes by
