## **Talk About Our Love**

What ya hear this time Go on and speak ya mind I know somebody's lying It's always somethin Her auntie told your cousin Then all your homies jumped in And now the whole hoods buzzin He said, she said Don't let it get in ya head Baby don't say Something that you will regret I'm on your team It's us against them you'll see Hey, we ain't gon stop They just want what we got

The more they talk about our love The more they make it obvious The more they seem so envious How can they talk about our love When they don't know one thing about Instead they just runnin they mouth So all we do is tune them out

I swear they got some nerve Spreadin what they heard I cant give them no run I can't be concerned with all that talk I won't be involved That's my word See I'm not the one They got me confused They got me messed up Don't you think I've had enough When it comes to what we do All that matters is us two Don't pay them no mind We just gon show and prove

The more they talk about our love The more they make it obvious The more they seem so envious How can they talk about our love When they don't know one thing about Instead they just runnin they mouth So all we do is tune them out

Heres a couple of things I can't honor man How you listen to a girl who still wanna man Tell me the truth is that a man or Juwanna Man I'm wonderin why she "Ret' ta go", like Wanda Van When we met you was a V like Madonna man Now you went field runnin plays like Donovan McNabb before you get in a cab I trade in my cab Just to take you back to last summer man You don't remember when you was my sweetest

## Brandy

The more they talk about our love The more they make it obvious The more they seem so envious How can they talk about our love When they don't know one thing about Instead they just runnin they mouth So all we do is tune them out
