

Wish Your Love Away

Brandy

Remember that you told me that you love me
Remember that you told me you were there for me
Remember that you told me you can't do without
Me but it seems like word of mouth
Cause I'm giving everything I got in love
And everything your giving just ain't enough for me
No no I'm to the point where I wish that I

Boy I wish that I did-dnt love you
(Didn't love you)
And I wish that I didn't care
(Didn't care at all)
Why is it that I can't think bout nobody but you
If I had one wish left
Oh I would wish your love away
Oh I would wish your love away
Oh I would wish your love away

Remember that you told me I was pretty
Remember that you told me I was beautiful
Remember that you told me you was ready
And all them other bitches you can do without
And why do I feel you just the same
And boy I'm tired of playing games with you
And I'm to the point that I

Boy I wish that I did-dnt love you
(Didn't love you)
And I wish that I didn't care
(Didn't care at all)
Why is it that I can't think bout nobody but you
If I had one wish left
Oh I would wish your love away
Oh I would wish your love away
Oh I would wish your love away

I wish that
There was no more sleepless nights for me
(And I wish that)
You can look inside my heart and see
How I'm feeling baby
Or maybe you just don't give a dam
Could I be foolish to give a dam baby
Cause I'm to the point where I

Boy I wish that I did-dnt love you
(Didn't love you)
And I wish that I didn't care
(Didn't care at all)
Why is it that I can't think bout nobody but you
If I had one wish left
Oh I would wish your love away
I wish that I
Wish your love away

Boy I wish that I did-dnt love you
(Didn't love you)

And I wish that I didn't care
(Didn't care at all)
Why is it that I can't think about nobody but you
If I had one wish left
Oh I would wish your love away
