When She's Gone

Bratty

My baby is having sleepless nights
And I've been having them most of the time
Things are not the same as they were
Please take me back to when everything was well
She's not having fun anymore
I can feel her heart running out of love
And I can't prevent it
I've tried all but she's so careless

What am I gonna do
When she's gone?
You are the only one
That loves me the most

All the songs I've written are for you
All the nights I cried are for you
Paint my dirty body in colors again
Please don't go falling for somebody else (Somebody else)

What am I gonna do
When she's gone?
You are the only one
That loves me the most
What am I gonna do
When she's gone?
You are the only one
That loves me the most
