I Don't Love You

Bread

```
I don't love you
I just want you
If I don't have you never be the same
I don't love you, but girl you'd drive a man
Insane

I don't love you
But I need you
I don't even want to know your name
Every single minute you know is causing me
Great pain
I don't come from 'cross the RR tracks
I don't need no little body hangin' off my back
If you got plans for me
You'd better start singin' the blues.
