

Anti-everything

Breakbeat Era

My life home life,
Drought in the night life,
Half light twilight,
My life is no life.
Change come on and do it,
Shame your'e only fooling,
I don't find you,
In the least amusing.
Blood throb deadline,
Can't think can't whine,
Burn ya baby all night,
Don't forget to do it.

Superskunk affected
Mind disease believe
Taste it I can feel it
Anti everything
Whack up the smile to factor ten
It's a dodgyt situation
Flagship indicator
Maybe I'll be ready
I'm just an honest nonsensebreaker
I ain't worked it out yet
Steal the thorn and bin the nose
I was raised a double agent
Hardwire isolator
See through invitation.
