

Down

Breaking Benjamin

Lie beneath, faded in selfish, I fall between jaded and helples
s
I long to breath, wasted and empty inside
To be faceless and buried alone
Into your eyes I live, beautifully broken

Fight! We'll fight!
And bury our lives
We'll break these chains
And wash it away
Oh light, carry me over the ground
Heavy won't hold me down

Blind, belief, wasted in envy
I long to bleed, nameless and hated
I fall relieved, violent and empty
Alive, to see, suffer in silence alone
Into your eyes I live, beautifully broken

Fight! We'll fight!
And bury our lives
We'll break these chains
And wash it away
Oh light, carry me over the ground
Heavy won't hold me down

Love won't lie!
Tell me it's over, so long
I've done wrong!
Under the shadow of dawn

Fight, we'll fight
And bury our lives
We'll break these chains
And wash it away
Carry me over the ground
Heavy won't hold me down
Into the sun we burn
Heavy won't hold me down!
Down!
Down!
Down!
