

Psycho

Breaking Benjamin

Into the bottom I will go
I feel the daylight choking
Into the vile I become
I am forever changing

In the cold eternal light
I am the ember fading
Every scar we try to hide
I am the fake you make me

Into the hollow I let go
I see the darkness close in
Into the silence I've become
I am the faith forsaken

In the cold eternal light
I am the ember fading
Every scar we try to hide
I am the fake you make me
Psycho, let go
I am the one embracing
Psycho, faithful
I am the rupture breaking

In the cold eternal light
I am the ember fading
Every scar we try to hide
I am the fake you make me
Psycho, let go
I am the one embracing
Psycho, faithful
I am the rupture breaking
