

Red Cold River

Breaking Benjamin

It's reborn
Fight with folded hands
Pain left below
The lifeless life again

Roar, roar, roar
Red cold river
Roar, roar, roar
Red cold river

I can't feel anything at all
This life has left be cold and down
I can't feel anything at all
This love has led me to the end

Stay reformed
Erase this world
Pain left below
The dark stream war

Roar, roar, roar
Red cold river
I can't feel anything at all
This life has left be cold and down
I can't feel anything at all
This love has led me to the end
Roar, roar, roar
Red cold river

Try to find a reason to live
Try to find a reason to live
Try to find a reason to live

I can't feel anything at all
(Try to find a reason to live)
This life has left be cold and down
(Try to find a reason to live)
I can't feel anything at all
This love has let me to the end
Roar, roar, roar
Red cold river
