

## Overdrive

## Breathe Atlantis

Burn, burn, burn it up  
Shoot and strike me down  
Break the walls inside my mind  
And kill the devil inside

Running in circles nowhere to escape  
Am I strong enough to break these chains  
Break these chains  
Nowhere to escape

This is a prison  
These walls are full of hate  
Waiting for my black parade (black parade)  
Let it rain on me

Am I born for the misery  
Will I ever find the truth in me  
Tell me, tell me what I am  
Make me lose my demons

Burn, burn, burn it up  
Shoot and strike me down  
Break the walls inside my mind  
And kill the devil inside

I am an outcast  
Caught up in the past  
Guess this pain is gonna last forever  
No escape, no, never

Overdrive, a duality tearing me apart inside  
Overdrive, crash and burn

Am I born for the misery  
Will I ever find the truth in me  
Tell me, tell me what I am  
Make me lose my demons

Burn, burn, burn it up  
Shoot and strike me down  
Break the walls inside my mind  
And kill the devil inside  
And kill the devil inside

Hell might be the right place for me  
'Cause gasoline runs through my bloodstream  
So burn, burn, burn  
Hell might be the right place for me  
'Cause gasoline runs through my bloodstream  
So burn, burn, burn  
And set fire to the void inside of me

This is my prison

These walls are full of hate  
Waiting for my black parade  
Black parade

Burn, burn, burn it up  
Shoot and strike me down  
Break the walls inside my mind  
And kill the devil inside

Burn, burn, burn it up  
Shoot and strike me down  
Break the walls inside my mind  
And kill the devil inside

Devil inside
