

# Blackout

Breathe Carolina

Cut up and I can't feel my hands  
No need to chase  
Can you relate?  
Can you keep up the pace like you're dying for this?

And when you say "I'm not okay"  
I left my phone in the cab  
Now you can't get mad  
I'm only getting started

I won't blackout  
This time I've got nothing to waste  
Let's go a little harder  
I'm on fire  
I won't blackout  
I'm on my way  
I'm only getting started

And I can't see your face  
Cigarette the wrong way  
Inhale to the top of my lungs  
I've been dying for this

And when you say "I'm not okay"  
I left my phone in the cab  
Now you can't get mad  
I'm only getting started

I won't blackout  
This time I've got nothing to waste  
Let's go a little harder  
I'm on fire  
I won't blackout  
I'm on my way  
I'm only getting started

I won't blackout  
This time I've got nothing to waste  
Let's go a little harder  
I'm on fire  
I won't blackout  
I'm on my way  
I'm only getting started

This won't stop till I say so  
This won't stop till I say so  
This won't stop till I say so  
Going and going and going and going and go, go

This won't stop till I say so  
This won't stop till I say so  
This won't stop till I say so  
Going and going and going and going and go  
I'm only getting started

I won't blackout  
This time I've got nothing to waste

Let's go a little harder  
I'm on fire  
I won't blackout  
I'm on my way  
I'm only getting started

I won't blackout  
This time I've got nothing to waste  
Let's go a little harder  
I'm on fire  
I won't blackout  
I'm on my way  
I'm only getting started

This won't stop till I say so  
This won't stop till I say so  
This won't stop till I say so  
Going and going and going and going and go  
I'm only getting started

This won't stop till I say so  
This won't stop till I say so  
This won't stop till I say so  
Going and going and going and going and go  
I'm only getting started
