

Coma

Breathe Carolina

Should've checked out tutorial
Barely breathing on the floor yeah
Fluorescent lights inside my eyes
I wish it was the first sign
I got nothing on the inside
I'm hanging on to every line

I can't let you go now
It's about time now we slow down
I never heard silence be so loud
Girl why you got to be so loud
So just let me know now
If I should just let you go now
I never heard silence be so loud
Girl why you got to be so loud

I should've put it on the line
You're givin' someone else your time
I should've put it on the line
Oh on the line

I'm not doin' alright
I'm not doin' alright
I'm not doin' alright
I'm not doin' alright

I guess I'm going home now
So you could turn all the lights out
How you're the one less loved

I can't let you go now
It's about time now we slow down
I never heard silence be so loud
Girl why you got to be so loud
So just let me know now
If I should just let you go now
I never heard silence be so loud
Girl why you got to be so loud

I should've put it on the line
You're givin' someone else your time
I should've put it on the line
Oh on the line

I'm not doin' alright
I'm not doin' alright
I'm not doin' alright
I'm not doin' alright

I should've put it on the line
You're givin' someone else your time
I should've put it on the line
Oh on the line

I should've put it on the line
You're givin' someone else your time
I should've put it on the line

Oh on the line
