

## In the Dark

Breathe Carolina

You've been in my head doing circles  
I'm a fucking mess, going psycho  
Didn't wanna see things sideways  
Didn't wanna sleep in solo

I go dreaming again  
All that we did, all that we had  
Yeah, I might overreact  
I'm out of my head, it's out of my hands

And I can't concentrate  
You're out there wide awake  
I'm in the dark, in the dark  
I fall apart, fall apart

I can't take much more of chasing your ghost  
In the dark, in the dark  
I can't say much more, let's face it, you're see-through  
In the dark, in the dark  
In the dark, in the dark

You've been having fun, that's for sure  
Ever since you walked out that door  
Everything you post is torture  
Watching while you chase that culture

I can't concentrate  
You're out there wide awake  
I'm in the dark, in the dark  
I fall apart, fall apart

I can't take much more of chasing your ghost  
In the dark, in the dark  
I can't say much more, let's face it, you're see-through  
In the dark, in the dark  
In the dark, in the dark  
In the dark, in the dark

I can't take much more of chasing your ghost  
In the dark, in the dark  
I can't say much more, let's face it, you're see-through  
In the dark, in the dark
