

Interlude

Breathe Carolina

Everybody doubts me now
Everybody likes me less
So I send my love, goodbye
I send my love, goodbye
Everybody doubts me now
Everybody likes me less
So I send my love, goodbye
I send my love, goodbye

And I'm fucking rotting, I'm rotting away
I'm rotting away
Oh-oh-h, oh-oh-oh
And I heard you say
That it hurts inside
When you see, see me this way
Don't you wanna change?
Don't you wanna change?
At least for me

And everybody doubts me now
Everybody likes me less
So I send my love, goodbye
Send my love, goodbye
Everybody doubts me now
Everybody likes me less
So I send my love, goodbye
Send my love, goodbye
