

## Lovely

Breathe Carolina

Oh no, my heart is getting heavy,  
Was I was forward?  
I kinda had the feeling that it's over,  
But know I know that I'm crazy  
(I think that I'm going nowhere)  
So scream loud and look at me way down,  
I know that you're afraid,  
I'll hold you close and never, ever let you go

Up and Down  
You spin me around  
You got everybody watchin as you hit the ground  
So take a step back  
You know I'm there

Oh God can you save me now?  
Enough Vallium to fill this room  
It's kinda hard when I'm dead right?  
It's kinda hard when I'm dead...

Oh love you got me crazy feen'n  
Like it's nothing that I could've wanted  
Take it slowly and maybe you'll know I'm ready.  
We can get over it  
Scenery is nothin more than poetry  
Hotter than two lovers cumming next to me  
I know

Why Are You Leaving  
Please Don't Go  
Stay With Me  
Come On Breathe  
You Gotta Find A Way

You and I got our whole lives ahead of us.  
We turned you - Can We turn you on?

I hope heaven needs you more than I need you now  
You know I love you  
(I can't believe it's you)
