

Good For You

BRELAND

I can do some things that you never thought of
Make an engine run on water
Better than Chevrolet
Give me the time and place
I can drop a buck from 'cross the holler
You know I ain't talking dollars
From half a mile away
Put dinner on your plate

Green grass and gravel
I know like the back of my hand
Backroads and honey holes
Are all things that I understand

But tell me, what good is being good at everything
If I'm no good at loving you
And what good is doing everything I've ever done
If I never did what I promised to
Cause now I know being good ain't good enough
If I never was that good for you
And darling if moving on is what you want
Then go on, good for you

My daddy taught me how to love my momma
Had to show respect and honor
No it ain't nothing new
But when it comes to you
I can't seem to figure out the problem
I'm always doing something wrong and
I know you're on the edge, I'm trying my best

But tell me, what good is being good at everything
If I'm no good at loving you
What good is doing everything I've ever done
If I never did what I promised to
Cause now I know being good ain't good enough
If I never was that good for you
And darling if moving on is what you want
Then go on, good for you
