

CHERRY

Bren Joy

It's how I love you
It's magic in your eyes
Lingers in my mind and I
Ooh feel
I want it but I'm shy
And I don't really know the reason why

Light skin figure
With a west side trigger
When the lights get dimmer
Then the pants get bigger
Big lips no filler
And they taste like

Cherry pies
Idolize
Like you're the apple of my eye
Ghettoize
Why you're lying

Love me love
Luh luh love me love
I know you love
To love me love
My lovely love
Little love

I'm 'a stay anyway
Ain't no way
You can fake the way we love
Love me love
Luh love me love
My lovely love

Yous a freaky freak
Only praises no critiques
You love the birds and bees
Come practice them with me
My

Cherry pies
Idolize
Like you're the apple of my eye
Ghettoize
Why you're lying

Love me love
Luh luh love me love
I know you love
To love me love
My lovely love
Little love

I'm 'a stay anyway
Ain't no way
You can fake the way we love
Love me love

Luh love me love
My lovely love

Cherry pies
Idolize
You're so fine when you lie
Cherry pies
Idolize
Must be mine my cherry pie

Cherry pies
Idolize
You're so fine when you lie
Cherry pies
Idolize
Must be mine my cherry pie
