

POLICEMAN

Bren Joy

I need a double of you
Like the Carolinas
I could eat you eat you up
Yous a rare delight

In the city of freaks
You're my Delilah
Cause what you do to do to me
Might send me down the aisle

Blood diamonds on your red hand
My fingers round your waistband
Quick!
Run from the policeman

It all just feels like ooo
Is the way that I feel with you

You're gonna, gonna set us free
You're gonna, gonna set us free
You're gonna, gonna set us free
You're gonna, gonna set us free

Come float on over to me
I need an angel guardian
There's all these demons in these streets
And I'm the worst of all

Come take my foot off the breaks
I'm chugging gasoline
The way you push me push me that's
What's gonna set us free

Blood diamonds on your red hand
My fingers round your waistband
Quick!
Run from the policeman
It all just feels like ooo

Is the way that I feel with you
It all just feels like ooo
Is the way that I feel with you

You're gonna, gonna set us free
You're gonna, gonna set us free
You're gonna, gonna set us free
You're gonna, gonna set us free

You're gonna, gonna set us free
You're gonna, gonna set us free
You're gonna, gonna set us free
You're gonna, gonna set us free
