

SHIVER

Bren Joy

Late at night
When I'm lonely
It's been the only
Time I see me cry

No surprise
That I still hear you
Just wanna be near you
The way you make me shiver

When these waters drown my eyelids
I shiver
When I meet you in the silence
Ooh

To lose my mind
Feels too trendy
Attempt to mend me
Please don't squeeze too tight

Still I rise
And dance like I've got diamonds
In my thighs
That's when you make me shiver

When these waters drown my eyelids
I shiver
When I meet you in the silence

Feel like I done lost my mind
Why does everybody gimme smiles
Shower you with all these different flowers
Nobody would give me a half an hour
To find my mind

I need to find my mind

You make me shiver

When these waters drown my eyelids
I shiver
When I meet you
I wanna meet you
When I meet you
Ooh
