

## Upper East Side

Bren Joy

I never should've left now I miss the vibe  
I never should've left all my ride or dies  
I never should've left where I felt alive  
But that's what you need, that's what you need  
We were riding in the gold Cadillac Deville  
Cause that is how we flowed call it daffodil  
I never should've left cause it felt surreal  
Yeah it felt so real

It's the Upper East Side yeah we living it up  
It's the Upper East Side we ain't giving it up  
And we don't wanna see you cry baby lift your head up  
We just wanna see you fly so we picking you up  
It's the Upper East Side and we living it up  
On the Upper East Side we ain't giving a fuck  
And we don't wanna see you cry baby lift your head up  
We just wanna see you fly so we picking you up

Its the Upper East Side yeah we vibin' all night  
Grab your baby and dance into the night  
Welcome to the East side, we be vibin' all night  
Grab your baby and dance into the night
