

How Many Times Did You Mean It

Brenda Holloway

You told me things when we meant
A girl likes to hear
Raved over how well I dressed
Drawing me step by step
Closer to you

How many times did you mean it?
How many times did you mean it?
When you said you loved me
When you said you loved me

Each day you sent me a rose
Your card promised so much
Kissed me goodnight on the phone
What did it mean all along?
To you, tell me

How many times did you mean it?
How many times did you mean it?
Did you really want me?
Did you really want me?

It's so sad
Our love didn't last

Makes me want
Baby!
Oh baby

You'll be so hard to forget
I've grown so used to you
My heart is all soaking wet
You've got me so upset

Please babe
Darling, you said you cared, I believed it
How many times did you mean it?

How many times did you mean it?
When you said you loved me

How many times did you mean it?
When you said you loved me

How many times did you mean it?
