

Two Hearts

Brenda Lee

Keep on looking for summers passing by,
You will wake up with sunlight in your eyes
And together it's all your dreaming of,
It's the look of two hearts in love

When your sharing your heart with someone new,
You will find all your dreams are coming true
And together it's all your dreaming of,
It's the look of two hearts in love

Summer will go on forever,
Young hearts are finding that it's true
You'll find the love that is waiting,
Just for you, just for you

Keep on looking for summers passing by,
You will wake up with sunlight in your eyes
And forever is all your dreaming of,
It's the look of two hearts in love

You'll find the love that is waiting,
Just for you, just for you

Keep on looking, for summers passing by,
You will wake up with sunlight in your eyes
And forever is all your dreaming of,
It's the look of two hearts in love
It's the look of two hearts in love
