

# The Universe Is Calling You

Brenda Russell

You know, a starlight is on and the universe  
Is calling you  
Let's go  
Just take my hand and I'll take you there  
Where dreams come true

We'll play  
Like kids in the sand and stay up all night  
Baby, like lovers do

And so, you know that my heart and the universe  
Is calling you

Don't be shy, just come and join the chorus  
The night is for us  
To have some fun

Dry your eyes  
And follow your emotion  
Down to the ocean  
Til morning comes

Say bye-bye  
To all your conversations  
Your situations  
It's time to run  
(Oh yeah, yeah)

You know, a starlight is on and the universe  
Is calling you  
Let's go  
Just take my hand and I'll take you there  
Where dreams come true

I see, a smile on your face and it's telling me  
Baby, I'm getting through  
And so, you know that my heart and the universe  
Is calling you

Don't be shy, just come and join the chorus  
The night is for us  
To have some fun

Dry your eyes  
And follow your emotion  
Down to the ocean  
Til morning comes

Say bye-bye  
To all your conversations  
Your situations  
It's time to run

Don't be shy, just come and join the chorus  
The night is for us  
To have some fun

Dry your eyes  
And follow your emotion  
Down to the ocean  
Til morning comes

Say bye-bye  
To all your conversations  
Your situations  
It's time to run

You know, a starlight is on and the universe  
Is calling you  
Is calling you, now, now  
Hey hey, hey!

Is calling you  
Is calling you  
Is calling you  
Is calling you (baby, baby)

Is calling you  
Is calling you, now, now now  
Hey, hey, hey  
Is calling you  
Is calling you (baby baby)
