

# Flesh And Bone

Brendan Benson

Little lamb that you are  
Now you've wandered too far  
And you can't find your car  
You don't know where you've been  
When the night closes in  
You feel it under your skin  
You won't let me in

You can switch it off and on  
You were here but now you're gone  
From your head down to your toes  
It's just how the shockwave goes  
And you're running all the way  
When will you be here to stay  
You were with me all the time  
Now you're out of sight and out of mind

And you look like a dove  
Something sent from above  
Always in and out of love  
You try to run but you slip  
Now you got a bloody lip  
You just can't get a grip  
You won't let me in

You can switch it off and on  
Now you're here and now you're gone  
From your head down to your toes  
It's just how the shockwave goes  
And you're running all the way  
When will you be here to stay  
You were with me all the time  
Now you're out of sight and out of mind

Little lamb that you are  
Now you've wandered too far  
And you can't find your car  
You don't know where you've been  
When the night closes in  
You feel it under your skin  
You won't let me in, yeah
