

Just Get In

Brennan Heart

Losing your sanity
Yeah, I say you're panicking
Probably the first of your barriers are vanishing
You don't know what's happening
The audio is damaging
But everything inside is at peace
You stop battling
So take your chance and be the animal
Answer it
The call of the wild
In the style that is ravaging
Escape from a life that is stragglings
You're scrambling
The courage to enter my world
Just get in [x2]
