

Way Of Life

Brennan Heart

A way of life, so divine
When we wake up to the rhythm of the night
So right
When we lose ourselves we feel it burn inside

Do you still remember
When darkness turned to light
But now we're here
We're never looking back

A way of life till we die
In our hearts forever
All the time on our minds
Soldiers don't surrender

You and I
We're gonna start a revolution
Are you ready for the movement?
A way of life until we die

A way of life [2x]

We're gonna start a revolution
Are you ready for the movement?
A way of life until we die

A way of life

Do you still remember
When darkness turned to light
But now we're here
We're never looking back

A way of life till we die
In our hearts forever
All the time on our minds
Soldiers don't surrender

You and I
We're gonna start a revolution
Are you ready for the movement?
A way of life until we die

A way of life [2x]

We're gonna start a revolution
Are you ready for the movement?
A way of life until we die

A way of life
